

Leading SAFe®

Thriving in the digital age with business agility

Gain the insights you need to lead a Lean-Agile enterprise using SAFe and its underlying principles — and help your organization master business agility to thrive in competitive markets.

In this two-day course, you'll learn how to establish team and technical agility to organize and reorganize around the flow of value. Practice the skills to support and execute PI Planning events. Explore why it's critical to adopt a customer-centric mindset and Design-Thinking approach to Agile Product Delivery. Discover how to better align strategy and execution by successfully implementing Lean portfolio management within your enterprise.

Leading SAFe®

With SAFe® 5 Agilist Certification

Who will benefit?

The following individuals will benefit from this course:

- Executives and Leaders, Managers, Directors, CIOs, and VPs
- Development, QA, and Infrastructure Management
- Program and Project Managers
- Product and Product Line Management
- Portfolio Managers, PMO, and Process Leads
- Enterprise, System, and Solution Architects

Prerequisites

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe® 5 Agilist (SA) certification exam:

- More than 5 years' experience in software development, testing, business analysis, product, or project management
- Experience in Scrum

What you'll learn

To perform the role of a SAFe® Agilist, you should be able to:

- Lead the transformation to business agility with SAFe
- Become a Lean-Agile leader
- Understand customer needs with Design Thinking
- Enable Agile Product delivery
- Implement Lean Portfolio Management

Nurturing Lean-Agile Mindsets

As a SAFe Agilist (SA), you will strategically guide the adoption, success, and ongoing improvement of Lean-Agile culture in your enterprise. You will help define the organizational mission and vision, communicate strategic decisions and the need for change to all stakeholders and teams. You will also motivate knowledge workers by helping them develop their skills and careers in a way that enhances their capabilities and increases their engagement and commitment to the mission and vision of the enterprise.

“[We] had been to a Leading SAFe training, and once you see that big picture, your eyes start lighting up. It’s a powerful story how the Program layer aligns with Scrum teams We knew that SAFe was something that would work for us at Fitbit.”

DAMIAN BROWN Sr. Director of Program Management Office, Fitbit
